

# Bleumi Payments – Installation Guide For WooCommerce

Accept Traditional (like Card, Bank Transfer) and Crypto (like Bitcoin, Ethereum, Tether USDT, Litecoin, USD Coin, Binance USD, Algorand, Dai, RSK Smart Bitcoin, Dollar on Chain, Celo, Celo Dollar) payments in your WooCommerce Store with Bleumi.

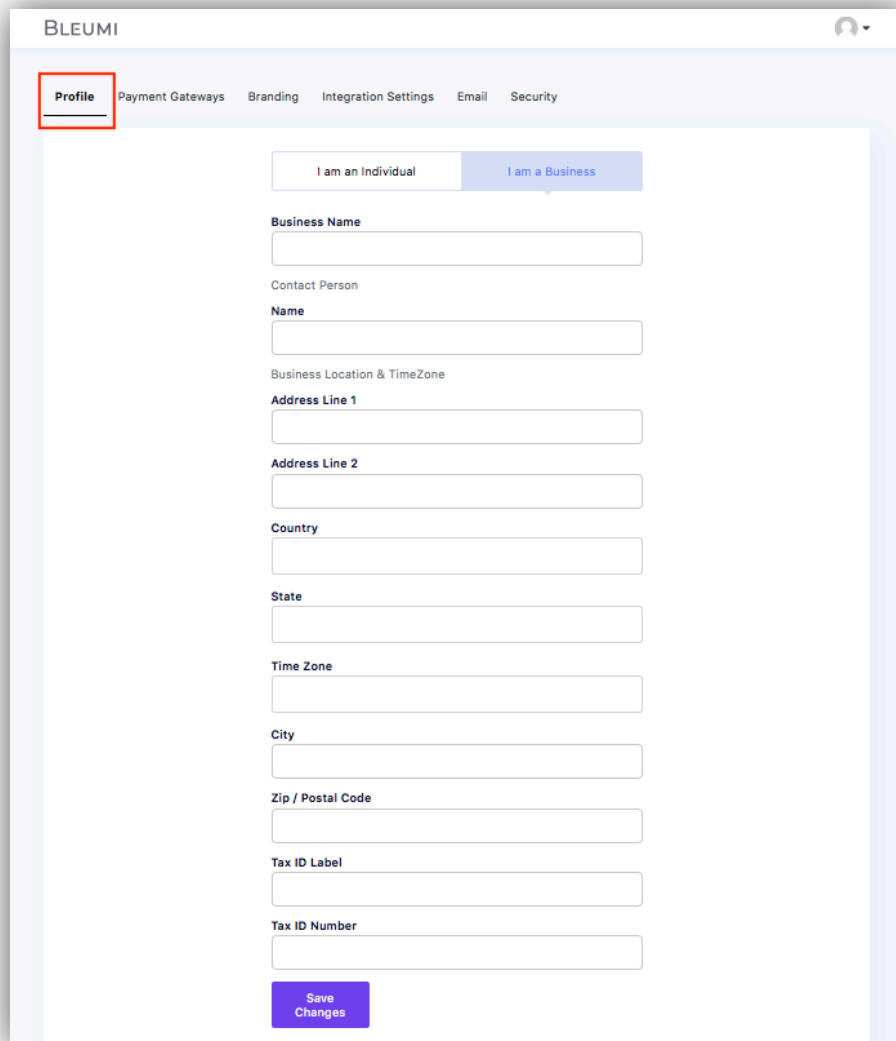

## Installation Overview

Step 1: Configure Your Bleumi Account .....	2
Step 1.1: Add Payment Gateway Accounts .....	2
Step 1.2: Configure and Enable Payment Methods .....	4
Step 1.3: Create API Key .....	5
Step 2: Install & Configure Bleumi Payments Extension In Your WooCommerce Store .....	6
Appendix .....	8
Order Status .....	8

## Step 1: Configure Your Bleumi Account

### Step 1.1: Add Payment Gateway Accounts

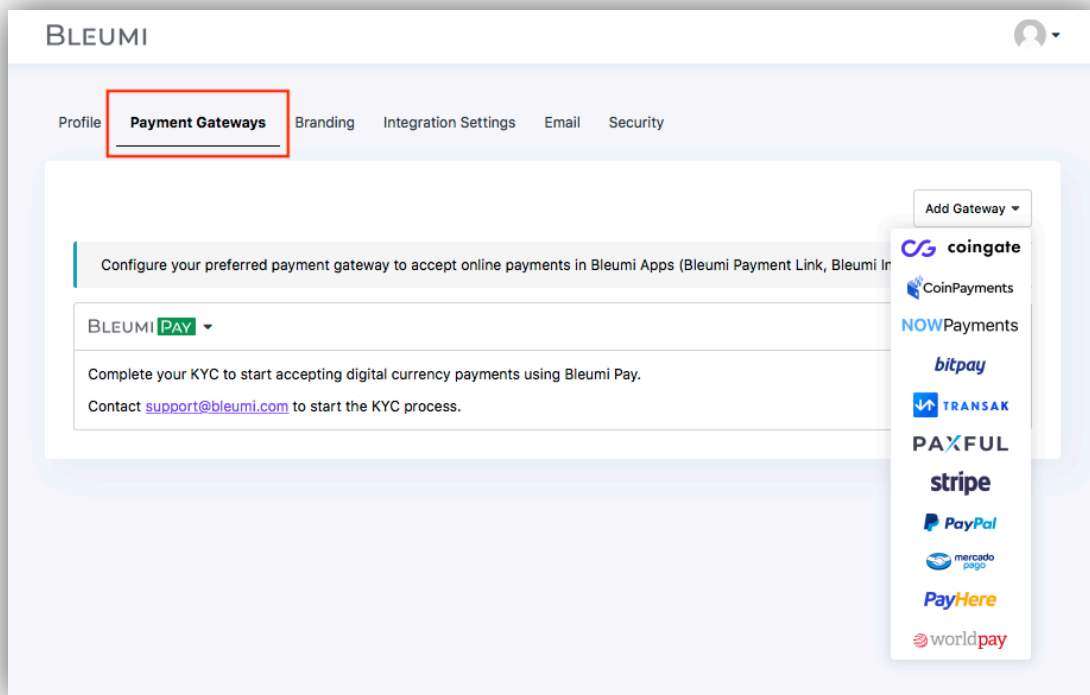

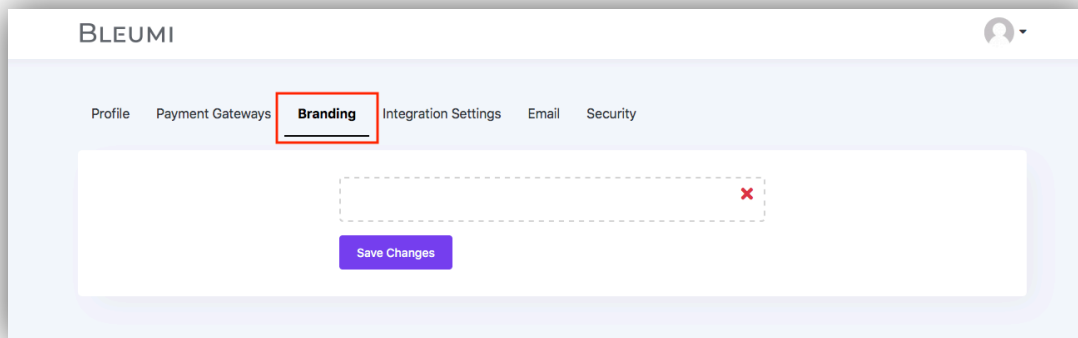

- Log in to <https://account.bleumi.com/login/?app=payment> and complete your **Profile** information.
- Switch to **Branding** tab and Upload your brand logo.
- Switch to **Payment Gateway** tab, navigate to **Add Gateway** dropdown and add your preferred Payment Gateway.
- To start accepting Crypto currency payments using **Bleumi Pay** - Complete your KYC process.

The screenshot displays the Bleumi account configuration interface. The top navigation bar includes the 'BLEUMI' logo and a user profile icon. Below this, a secondary navigation bar contains tabs: 'Profile' (highlighted with a red box), 'Payment Gateways', 'Branding', 'Integration Settings', 'Email', and 'Security'. The 'Profile' tab is active, showing a form for business information. The form has two tabs: 'I am an Individual' and 'I am a Business'. The 'I am a Business' tab is selected. The form fields are as follows:

- Business Name**: Text input field.
- Contact Person**: Section header.
- Name**: Text input field.
- Business Location & Timezone**: Section header.
- Address Line 1**: Text input field.
- Address Line 2**: Text input field.
- Country**: Text input field.
- State**: Text input field.
- Time Zone**: Text input field.
- City**: Text input field.
- Zip / Postal Code**: Text input field.
- Tax ID Label**: Text input field.
- Tax ID Number**: Text input field.

A 'Save Changes' button is located at the bottom of the form.

## Step 1.2: Configure and Enable Payment Methods

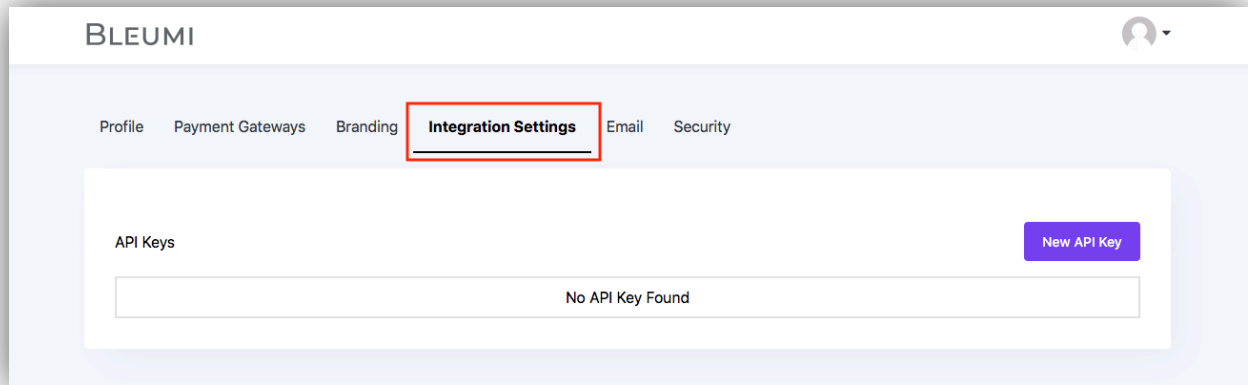

- Log in to <https://account.bleumi.com/login/?app=payment> , select **Payment Gateway** tab.
- In **Bleumi Pay** configure the **Payment Methods** merchant would like to receive payments.
  - For Selected Token **Enable** “Allow purchases to be made using this token”.
  - Copy and Paste your destination Wallet address merchant would like to receive payments.
  - Select the Presentment Currencies merchant would like to receive.
  - Configure **Adjustment / Charge**
  - Click **Update** to configure the payment method.
- Similarly **Enable Payment Methods** for your preferred **Payment Gateways** (Eg. Stripe, Paypal, BitPay, Coingate, etc).

The screenshot displays the BLEUMI account interface for configuring payment gateways. The 'Payment Gateways' tab is active, showing a list of configured payment methods. A modal window for 'USD Coin' is open, allowing configuration of the payment method. The modal includes fields for 'Destination Address', 'Presentment Currencies' (set to 'United States Dollar (USD)'), 'Adjustment' (checked), 'Label', 'Rate (%)', 'Excluded from Tax' (checked), and 'Max Adjustment (USD)'. An 'Update' button is located at the bottom right of the modal. The background shows the 'Payment Methods Configured' section with a list of methods including 'Celo Dollar (Alfajores Testnet)' and 'USD Coin (Algorand Testnet)', both marked as 'Disabled'.

### Step 1.3: Create API Key

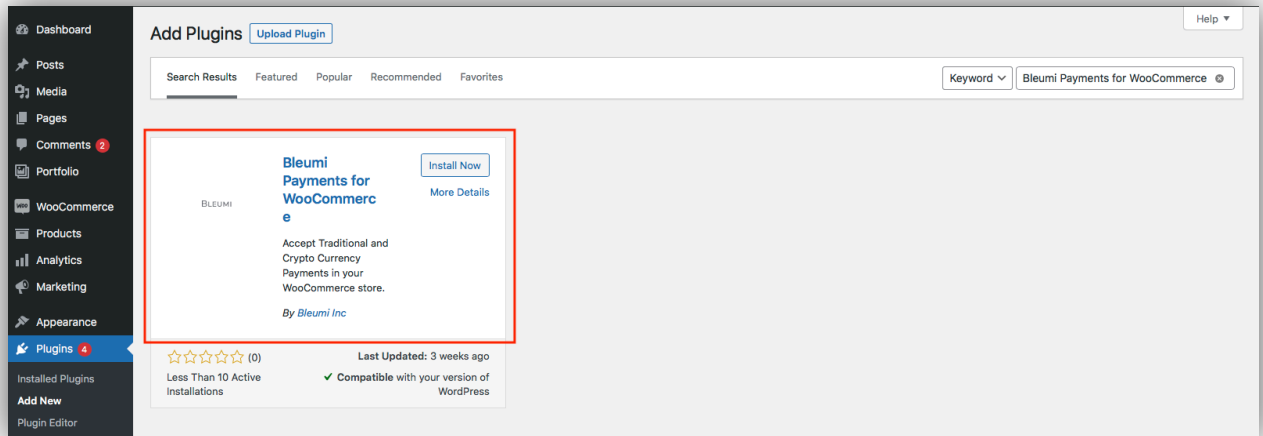

- Log in to <https://account.bleumi.com/login/?app=payment> , select **Integration Settings** tab click to add **New API Key**.

Note: For Bleumi Pay Production network access requires a verified account. To enable production access, contact [support@bleumi.com](mailto:support@bleumi.com).

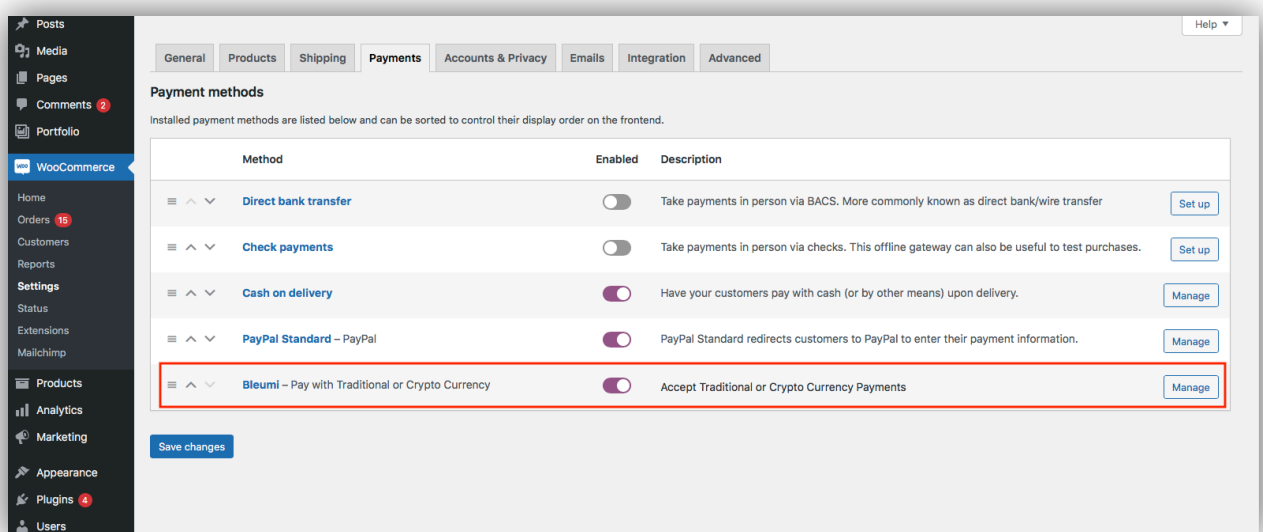

## Step 2: Install & Configure Bleumi Payments Extension In Your WooCommerce Store

- Log in to your WordPress admin panel of your WooCommerce store.
- Navigate to **Plugins** and search for “**Bleumi Payments for WooCommerce**”
- Click on **Install Now** to add Bleumi Payments for WooCommerce as a Payment method on your WooCommerce store.

- Navigate to **WooCommerce > Settings > Payments** and click on **Manage** under **Bleumi** payment method.
- Check **Enable Bleumi** checkbox.
- Copy and paste your Bleumi API Key from **Payment Gateway Settings > Integration Settings > Sandbox (or) Production**
- Click **Save** icon to Save changes.
